Burning**

Energy

Chromium

Important mineral that aids digestion and helps turn fats, carbohydrates, and proteins into energy.*

Coffea Arabica Bean Isolate

Provides increased energy and mental alertness while decreasing fatigue. Increases athletic performance.*

Caralluma Fimbriata

Cactus extract used by indigenous people to decrease feelings of hunger. Provides the body with sustained energy needed for activity.*

Citrus Aurantium

Increases resting metabolic rate (thermogenesis) and supports weight loss. Helps curb appetite and also supports the reduction of body fat.*

Evodiamine

Naturally raises core body temperature (thermogenesis) to support the prevention of fat around the belly.*

Theobromine

Alkaloid loaded with antioxidants and is also a natural appetite suppressant. Has a high concentration of phenethylamines, which signal the brain that the body is full.*

Green Tea Leaf Extract

Assists in fat loss by increasing metabolism (fat burning), supports weight loss and is an energy booster.*

Forskolin Root Extract

Appetite suppressant and metabolism booster. Can help curb cravings. Stimulates production of cAMP, which plays a role in regulating the metabolism of glycogen, sugar, and fat.*

Prickly Pear Cactus Leaf

Provides immune system support and is rich in antioxidants. Has also been found to reduce muscle soreness, speed recovery, and provide energy.*

Garcinia Cambogia Fruit Extract

Provides appetite suppression. Helps prevent fat storage and supports weight loss.*
